1. Contents & Features

Waqtoo is an under construction page with many features and easy to customize. It comes with awesome Bootstrap Framework and responsive layout.

a. Simple & Clean
b. Responsive Layout
c. Use HTML5 & CSS3
d. 10 Backgrounds
e. Countdown Timer
f. PSD Template
g. Well Documented

2. Customize Your Theme

a. Customize Page Background

Customize page background is easy. With 10 variations of background, you can choose the best color of your theme or create it with your own style. Here some steps how to customize your template.

1. Open index.html file using your favorite text editor.
2. Scroll down the page to line 24 and find the script as you seen on this image below

```
23
24        <body class="purple">
25            <div class="container-fluid">
```

3. Choose one of the following class name and put it on the body tag:
   o gray
   o brown
   o peach
   o maroon
   o gold
   o sky
   o pink
   o green
   o purple

4. All modification on your page may seem just like this image:

```
23
24        <body class="gray">
25            <div class="container-fluid">
```

5. If you already chose the CSS style, save and go to the page from your favorite browser.

3. Create Your Own Background Style

Create your own background style is easy. Here some steps how to create your own background style:

1. Open style.css file inside assets/css folder with your favorite text-editor
2. Scroll down the page until line 45 and find the script as you seen on this image below

```
43⊖  /* Theme
44   .......................................................*/
45⊖  .gray {
46       background: url(../img/zebra.png) left top repeat #5c5b5b;
47   }
48
49⊖  .brown {
50       background: url(../img/zebra.png) left top repeat #50352b;|
51   }
52
```

3. You can modified or make your own style. For example, copy and paste one of them, change #5c5b5b for gray color to #ffcc00 for orange color and rename .gray to .orange. Save it and follow the instruction how to Customize Your Theme.

Note :

If you need to modified your countdown timer, you can read it on http://keith-wood.name/countdown.html
